**THE PRIMARIES.**

Under the head "Reform of the Primaries" the *Philadelphia Record* offers some thoughts that are worthy of attention. They suggest the need of giving more serious attention to these elections, that they may reflect the will of the people:

"As it has been conceded that the primaries, which have at very best been a means of determining the outcome of all elections, every reasonable means should be taken to protect it from fraud and to give it due force and effect. Our hope is that the efforts of the citizens of so many important cities to invoke the constable to protect the attendance of children at school; but there is no such compensation process in view as comes from the great consideration of the State of the rudimentary nature of the most rudimentary political duty."

When the primary election shall finally come around, let us all give full expression to the popular choice of candidates for office the general elections will be of less importance. The simple question is, whether the primaries shall faithfully reflect the will of the people, or whether they shall become mere instruments of political debauchery in the hands of unscrupulous managers and municipal sponsored."

**THE REAL ISSUE.**

Col. Stone, the Republican candidate for Governor, represents a political machine so corrupt that the people have become aroused to the necessity of a decided change. Should he be elected he would be compelled to continue his despotic rule, but, if he were defeated, all likelihood, it would become the boldest. But, say the *Post* papers, Mr. Jenks, the Democratic candidate voted for free silver, and they say nothing else, indicating that nothing else can be said.

Four hundred and twenty-three thousand and citizen of Pennsylvania voted for free silver, among them some of the best men in our State, and the fact that our Republican contemporaries seek to make much of the silver issue now, so insignificant among the questions at present in the minds of the people of Pennsylvania, is an indication that the Republican press seeks to divert attention from material to immaterial issues, for the protection of their own party interests. But the one issue in Pennsylvania is, and ought to be, that of the people against machine politics.

It seemed to be the desire of the Democrats generally that our party platform and all that relate to State issues should be left alone, and our only efforts should be directed to the election of a clean State government. Mr. Jenks stands on that platform and a more suitable man to represent it could scarcely be found in Pennsylvania. He represents the people. On the other hand Col. Stone represents a political machine which has been a disgrace to Pennsylvania, and which deserves the severest censure at the hands of the people.

WILLIAM McKinley.

Executive Mansion,  
Washington, D. C., July 6, 1898.

**ANNEXATION OF HAWAII.**

President McKinley Signs the Resolution Passed by Congress.

The President Thursday evening signed the joint resolution passed by Congress providing for the annexation of Hawaii.

It was by a ceremony of the simplest character that the resolution annexing the Hawaiian Islands to the United States was enacted finally into law. It occurred in the cabinet room of the Executive Mansion, and only six persons besides President McKinley were present.

Mr. Hatch, the Hawaiian minister, went to the State Department and had his resignation accepted yesterday. On Friday, Maine was blown up in the harbor of Hawaii, it has been a war Congress, and prior to that time the debates on the condition of the reconquests in Cuba were of such a character as to cause apprehension as to the future relations of the United States and Spain. With the destruction of the Maine, however, was seemed to be accepted as inevitable, and a little more than two months after that catastrophe a formal declaration was made. Since then war legislation has been enacted, provision has been made for carrying on the conflict, and there has been complete harmony and co-operation between the legislative and executive branches of the government. The appropriation on account of the war amounted to \$60,788,000, according to the statement of the House committee on appropriations. For the necessary expenses of the government, including provision for the sinking fund and the interest on the public debt, the sum of \$330,739,589 has been appropriated in addition; so it will be seen that this has been an expensive session of Congress as well as a memorable one. A new revenue law has been enacted from which, it is expected, \$150,000,000 a year will be realized, while an increase of the bonded indebtedness has been authorized to the extent of \$400,000,000. Authority has also been given for the sale of certificates of indebtedness to the amount of \$100,000.

The conduct of the war is now left with the President. The President can make a treaty of peace with Spain, but it must be ratified by the Senate, so it is possible that an extra session of the Senate may be called before the regular session in December if Spain continues to make peace, however, and the conclusion of a truce, President McKinley can carry on the war without assistance from Congress. In fact, it is doubtful whether its presence would be desirable.

**A MAN OF ABILITY.**

In the nomination for Governor, Hon. George A. Jenks, is presented a man of unquestioned ability and the strictest integrity. Measured by every requisite, he is the equal of the next capable man, of whatever party, who has ever occupied the Gubernatorial chair of this Commonwealth. Moreover, he is a man above the suspicion of bias or corporatism in doing the right. His profound knowledge of the law and thorough familiarity with the entire structure of the State Government, makes it him for undertaking the urgent work of re-establishing government by the people and for the people in Pennsylvania.—Westmoreland Democrat.

GEORGE A. JENKS.

There can be no disengagement of the preceding occupants of the Governor's chair, Democrat or Republican, in saying that no better Gubernatorial timber has ever been offered the voters of Pennsylvania than that presented by the Altoona Convention in the person of Hon. George A. Jenks. His life and public

**War News.**  
Fighting at Santiago—Events of the Week in General.

General Shafter cabled to Washington Sunday that General Toral, in command of the Spanish troops in Santiago, had refused to entertain an unconditional surrender, and that in consequence a combined attack on the city had been planned for 4 o'clock.

Later General Shafter sent another cablegram that about 4 o'clock the Spaniards had opened fire, but had been repelled, though the Americans were repelled. An order was also sent with the retort, "fire away," which have just reached the General, he expects to communicate their vote as soon as they should concentrate their forces upon George A. Jenks for Governor.—Dulington Democrat.

Under the terms of an order just issued by General Miles even light guns and mortars may be excluded from the camp and post caissons of our army in the field. The battle of the Republic can be fought and won without the artificial stimulus of strong liquors which are doubly injurious to soldiers than to the whole people. That we will receive the united Democratic vote there is no doubt; and if the reform element throughout the State desires to break the grasp of the political anacondas now encircles it they should concentrate their vote upon George A. Jenks for Governor.—Dulington Democrat.

Under the head "Reform of the Primaries" the *Philadelphia Record* offers some thoughts that are worthy of attention. They suggest the need of giving more serious attention to these elections, that they may reflect the will of the people:

"As it has been conceded that the primary, which lies at the very base of Democracy, determines the outcome of all elections, every reasonable means should be taken to protect it from fraud and to give it due force and effect. Our hope is that the efforts of the citizens of so many important cities to invoke the constable to protect the attendance of children at school; but there is no such compensation process in view as comes from the great consideration of the State of the rudimentary nature of the most rudimentary political duty."

The total amount of appropriation for the current fiscal year which have been approved by Congress amount to \$892,237,991. The amount of estimated revenue for the fiscal year is \$482,747,647.

We are spending money at the rate of about two and one half million dollars per day, or just about twice the sum of our daily revenue.

You not only have to put a stamp on all your checks, but must mark each stamp with your initials and the date.

**President's Proclamation.**

McKinley Sets Aside a Day of Thanksgiving and Prayer.

President McKinley has Wednesday issued the following proclamation to the American people:

To the People of the United States:

At this time, when to the yet fresh remembrance of the unprecedented success which attended the operations of the naval and military forces of the United States in the first days of May last, added the tidings of no less glorious achievements of the naval, and military arms of our beloved country at Santiago de Cuba, it is fitting that we should express our feelings of admiration for the skill and valor of our men.

Admiral Cervera's fleet left Port Said Saturday evening on its return to protect Spain from the attacks of Commodore Sampson's fleet.

There is said to be serious friction in the Dixie, but it is directed to hurry his departure to attack the coast of Spain.

The Massachusetts has been substituted for the ironclad of the *Albion*.

Clellan camped at Black Hole, along Marsh  
Creek last week.

I am enjoying the best of health at  
present and hope you are the same. We  
were all down at the Bay yesterday swim-  
ming our horses. I have a horse of my  
own now. He is a good swimmer. This  
is rather a dismal country here, nothing  
but sand and pine trees. A pine tree does  
not grow 12 feet high. I am now through  
with recruit drills and now drill only 24  
hours with the troop every morning.

At 4:45 a.m., by the sound of the bugle  
we rise, in ten minutes assembly, then  
morning roll and breakfast. Generally  
bacon and potatoes. After breakfast,  
stable call, when we feed and groom, then  
our hour rest if not on duty or fatigue,  
then comes drill at 7:30 a.m., at ten it is  
over, then nothing till dinner, and after  
dinner nothing till 4 p. m., stable call  
when we feed and groom. After stable,  
we have supper at 5 p. m., guard rolls at  
7:30 p. m., roll call, then one hour rest  
and then another hour, then stable call  
when we feed and groom, and as it was  
ever was, do it alone instantly.

Years of suffering relieved in a single night.
